Background:

The LTC is required by the Transportation Development Act (Section 99401.5 and 99401.6) to adopt a definition of the terms “Unmet Transit Needs” and “Reasonable to Meet” and to pass a resolution of finding prior to allocation of any funds not related to public transportation services.

The finding shall be that:

- (1) There are no unmet transit needs.
- (2) There are no unmet transit needs that are reasonable to meet.
- (3) There are unmet transit needs, including needs that are reasonable to meet.

Unmet Transit Needs Definitions are as follows:

1. “Unmet Transit Needs” are defined as those transit needs which are not being met.
2. “Reasonable to Meet” is defined as those unmet transit needs that the ACLTC finds are within its ability to satisfy, in whole or in part, based on consideration of such factors such as equity, timing, feasibility, public safety, community acceptance, economy (short-term and long-term), cost effectiveness, operational efficiency, available funding and other factors related to providing transit services deemed appropriate by the ACLTC.

During the July 6th, 2021 LTC meeting, a public hearing was held to receive any requests for unmet transit needs. The SSTAC shall convene and discuss any feedback received during the Unmet Transit Needs Public Hearing and determine whether they are reasonable to meet. Minutes from the SSTAC meeting will be included in the July 20, 2021 LTC meeting before adopting any findings.
